

GAZEBO AND HIP END

ELEGANT OPTION FOR GABLE ROOF DESIGNS

“ The finishing touches bring it all together.
I really love my outdoor life. ”

INTELLIGENT ENGINEERING

Stratco engineers work hard to give you intelligent solutions for your outdoor living space, including:

- council-friendly plans for easy approval,
- specifications that exceed building regulations,
- a unique beam and bracket system for strength,
- impressive spans for clear uninterrupted views.

OUTBACK HIP END FOR ARCHITECTURAL SYMMETRY

With an enduring style, the Stratco Outback Hip End will add a traditional charisma to your home. The hip end is an elegant addition that completes the end of an Outback Gable. It has been designed to match the existing architecture of homes with a hip end in the roofline. You can incorporate a hip end to great effect on one or both ends of your gable.

OUTBACK GAZEBO END FOR A DISTINCTIVE FINISH

Exuding charm and character, the Outback Gazebo End adds a new dimension to the end of an Outback Gable. Designed to provide the finishing touch, its distinctive form will impart a refined and elegant air to your home. The Gazebo End has been designed to enhance the appeal of any home, and works especially well on those with bay windows and hexagon forms in the roof design.
