

OUTBACK CURVED

SHOW YOUR CONTEMPORARY FLAIR

OUTBACK CURVED ROOF

The contemporary form of the Outback Curved Roof Verandah, Patio or Carport will add value and impart a sense of style and sophistication to your home.

The curved roof can span up to 6.6 metres wide in both Multispan and Clearspan designs. It is available as a unit attached to the home. When combined with flat roof or pergola sections it becomes part of a system, with the elegant curved roof forming the central feature of the design.

Clearspan for smooth ceiling-like appearance using Outback Deck.

SMART DESIGN

Stratco designers work hard to give you smarter solutions for your outdoor living space, including:

- enclosed beams to discourage pests,
- minimal framework for less cleaning,
- fewer visible screws for a neater appearance,
- self-locating brackets for easier installation.

“ The smooth, clean lines of the curved roof form a graceful canopy over any outdoor area. ”

MULTISPAN FOR ROOFING MATERIAL CHOICE

The Outback Multispan Curved Roof has purlins that are placed over the rafters in the roof. This supports your choice of cladding; from smooth Outback Deck, light and airy polycarbonate, or classic corrugated steel. Excellent if you want to achieve a very particular colour or light level.

CLEARSPAN FOR UNCLUTTERED CLEAN LINES

The Outback Clearspan Curved Roof minimises beams and rafters by using remarkably strong Outback Deck. This leaves the roof area clean and uncluttered with a ceiling-like appearance from beneath. It also makes cleaning easier with fewer 'nooks and crannies' to gather dust and pests. Rooflites are available to brighten your lifestyle space underneath.

Multispan for roofing choice including polycarbonate.
